RMS is looking for a team player with well-rounded technical and communication skills to join our product development staff. The successful candidate will have a proven track record of positive results. As a VB/SQL Developer, the candidate will fill a focused technical position that will involve both new development and production support for the company's in-house developed applications.

A combination of technical skills - VB, ASP, MS SQL 2000, Oracle 9i/10g, and JavaScript, all in the Windows environment - are preferred, and excellent verbal and written communication skills are required.

The ability to work well in a team environment is a must. University housing experience is a plus.

Please send your resume and salary requirements to jobs@rms-inc.com.
