

RMS is currently working on some of the most innovative and novel development we've ever produced. Joe Moore and Ken Stamper gave a presentation at this year's RMS World Business and Technology Workshop about Project Mercury. Mercury is the internal project name for the next generation RMS product suite; embracing the flexibility, functionality, and scalability to move with our customers into the future.

We realize that not all of our customers were able to join us for this presentation in person or that there may be additional, follow up questions from those of you who were able to attend. So, we'd like to provide two additional online presentations about Project Mercury in June.

These presentations will both be given via WebEx online meeting. In order to join one or both of the presentations, you will need to register for the session(s) using the link(s) below. After your registration is accepted, you will receive a follow up email with instructions on how to join the meeting.

Title: **RMS Mercury 1.0 Overview (Session 1)** Date/Time: Thursday, June 9 at 2 PM Eastern

Title: **RMS Mercury 1.0 Overview (Session 2)** Date/Time: Tuesday, June 14th at 10 AM Eastern

Registration Link: <https://rms-inc.webex.com/mw0306lc/mywebex/default.do?siteurl=rms-inc>

You'll need to use the tabs at the top of the page (Daily, Weekly, Monthly) to find the meeting(s) you'd like to register for and then click the link to Register.

Please contact Kyle Hammett at kyle@rms-inc.com with any questions or concerns.

We look forward to talking more with all of you about Project Mercury!
